Robert BLAKEY

MSc Engineering Management
CEM, CFM, CHFM, FMP, LEED® AP, MRICS, PROFM, SFP, VMA

Director and Sr. Instructor

Robert L. Blakey received a B.S. in Management as well as an M.S in Engineering Management from California Coast University. In addition, he received a license as a Chief Engineer for Steam, Motor and Gas Turbine Vessels of Any Horsepower from the United States Merchant Marine.

Robert has over 30 years of in-depth and diverse facilities management experience. His background spans both public and private sector work. During the course of his career in the public sector he has worked for municipal governments, state agencies, and federal agencies. In the private sector, he has worked in the healthcare, real property management, research laboratory, maritime, and fuel transportation industries.

He has worked for small companies up to and including Fortune 500 corporations. In addition, Robert has worked as a consultant in the field of life-cycle based design and optimization for universities, corporations and government agencies. He retired in June 2019 from CBRE, a Fortune 500 Company, as the Senior Manager for Operations on the Kaiser Permanente of Washington account with responsibilities covering approximately 4,000,000 square feet of property.

Robert is an active member of IFMA. He was an officer of the IFMA Research & Development Facilities Council 2005-2015. In addition, he has served with the International Credentials Commission as a

member of the Facility Management Professional (FMP) Credential Scheme Committee. He is also a member of the Board of Directors of the Seattle Chapter of IFMA. He is a frequent presenter at regional and national conferences for many organizations including; IFMA, ASHE, I2SL, and Tradeline. He has conducted seminars and presentations to companies and groups on the dimensions and challenges facing facilities professionals.

Robert also serves as an adjunct professor at the University of Washington where he teaches a Facilities Management Certificate program.

Robert is a Board Member of the National Institute of Building Sciences – Building Smart Program and is a member of the National Science Foundation visiting committee for the Building Efficiency for a Sustainable Tomorrow (BEST) Center in Oakland, California.

Robert was a subject matter expert in the development of IFMA's Facility Management Professional (FMP) program as well as for the Sustainable Facilities Management (SFP) program for IFMA. He was an IFMA-Certified Master Instructor for all IFMA courses for over a decade.

ABOUT FM-COLLEGE

FM College is focused on providing quality education in facilities management that creates meaningful change for the student, their employer and the industry.

Education in facilities management is not something you can complete at any point of your career and then be done. It is not something that can be gained simply by studying books and attending seminars. Facilities management education is about applying knowledge gained from books and courses to real-world situations. Also, accomplishing this in a world that is changing ever more rapidly.

We believe in providing an educational experience that creates a real difference in a person's function as a facilities manager; today, tomorrow and into the future.

Focusing on this type of change, we have structured our courses to provide rapid, effective knowledge gain, with minimal time away from your job; but also to provide a year-long opportunity to absorb that knowledge, discuss it with other industry professionals, and review the course content in depth with these new insights.

We feel that this process, will create the turning point in your career that you, and your employer, are looking for!

Yours truly,
Robert Blakey, Director
FM College, Inc.

ACCREDITED BY:

ProFMI

The Professional Facility Management Institute (ProFMI) is committed to elevating the facility management industry and serving its professionals around the world. Formed in April 2017, ProFMI is a partnership between National Facilities Management & Technology (NFMT) and Holmes Corporation. ProFMI is guided by a voluntary group of industry thought leaders, the ProFMI Commission.

ProFMI COMMISSION

The ProFMI commission is comprised of 11 voluntary leaders, speaking for the market and representing the diversity of the FM profession. The ProFMI Commission works to define the required knowledge and competencies of all facility professionals, to validate these findings with ongoing market research, to create and deliver superior education, and to evaluate professionals against these standards with the ProFM credential.

COURSE OVERVIEW

24 Things Every FM Professional Should Know

The foundation of the ProFM® credential is the ProFM Body of Knowledge, which defines the 19 functional FM knowledge areas and five cross-functional competencies required of today's facility professionals. This body of knowledge is the result of an extensive 2017 research study led by ProFMI and the ProFMI Commission with input from over 3,300 professionals spanning 93 countries

ProFM Adds Value for You, and Your Entire Organization

Now is the time to start becoming an FM of the future to ensure you and your organization are prepared to meet the changing roles and needs that the facility management industry as a whole is facing. ProFM's all-in-one program allows individual facility professionals or whole departments to fill in knowledge gaps and take on skills that are needed to keep your organization moving forward.

Five modules teach the entire ProFM Body of Knowledge:

- Competencies for Facility Professionals
- Asset Management
- Risk Management
- Business Management
- Operations & Maintenance

IN-HOUSE

Enjoy this certified program at your premise of choice, with lower costs, and schedule that suits you best. Call or email us to discuss further.

THE FM COLLEGE ADVANTAGE

1 Year Access To All Online Courses

- ProFM taught online 4 times per year
- **This is in addition to ProFMI® Self-Study access.**
- Attend "missed" sessions
- Refresh your knowledge while taking the online exams

Additional Monthly Course Webinars

- Monthly "Lunch & Learn"
- Topics related to specific course subjects
- Sometimes guest speakers
- Topics always reflect "State of the Art" thinking
- Current & relevant

Course Forum Access

- Forum monitored and led by instructors who will reply to questions and concerns
- Current and past students encouraged to participate
- Questions, thoughtful new topics, relevant links and articles are encouraged from all.

Newsletters, Resources & Links

- General interest newsletter
- Current forum topics
- Upcoming "Lunch & Learn" topics
- Relevant news articles
- Summary of new resources
